Product Description

Simulated Gypsophila Features

Long-lasting bright color: best artificial gypsophila is not restricted by seasons and weather, and maintains a long-lasting bright appearance, showing vitality and beauty at any time.

No special care required: Compared with real plants, gypsophila silk flowers do not require regular watering, pruning or special lighting conditions, reducing the workload of maintenance while being able to remain in good condition.

Various color choices: Artificial gypsophila can be made into a variety of color choices through dyeing processes to meet different occasions and personal preferences, providing a richer range of decoration options.

Flexible use: realistic artificial gypsophila is suitable for various occasions and can be made into bouquets, garlands, decorations, etc. It can be flexibly used in weddings, festival celebrations, home decoration and other scenes to bring beauty to the environment.
